- *Jennifer Morgan, State Secretary and Special Envoy for International Climate Action, German Federal Foreign Office*
- *Dr Patrick Graichen, State Secretary, Ministry for Economic Affairs and Climate Action*
- *Holger Lösch, Deputy Director General, Federation of German Industries*

3.00 pm

Presentation of the World Energy Outlook 2022

Dr Fatih Birol, Executive Director, International Energy Agency

Q & A Session

3.30 pm

Panel discussion

Key questions: How do we in Germany, Europe and worldwide face the energy crisis driven by Russia's war of aggression against Ukraine in violation of international law? What does this mean for the energy transition – how do we stay on course and maintain our confidence when implementing our goals? How can the results of the COP27 in Sharm El-Sheikh be interpreted against this background?

The discussion will be chaired by Dr Carsten Rolle, Head of Department Energy and Climate Policy, BDI; Executive Director, World Energy Council - Germany

- *Dr Timur Gül, Head of Energy Technology Policy Division, International Energy Agency*
- *Dr Volkmar Pflug, Vice President Energy Economics, Siemens Energy AG*
- *Birgit Schwenk, Director General Climate Action, Ministry for Economic Affairs and Climate*
- *Dr Kirsten Westphal, Executive Director, H2Global Foundation*

4.20 pm

Summing up

- *Dr Carsten Rolle, Head of Department of Energy and Climate Policy, BDI; Executive Director, World Energy Council – Germany*
